PROFESSIONAL SUMMARY

Detail-oriented Java Full Stack Developer and MCA graduate with hands-on experience building responsive, full-stack web applications using Java, JavaScript, React.js, and SQL. Skilled in REST API integration, JDBC-based database connectivity, and end-to-end feature development across frontend and backend layers. Strong foundation in Object-Oriented Programming, problem-solving, and the Software Development Lifecycle (SDLC), with practical experience managing projects through Git and GitHub. Adept at translating requirements into clean, maintainable code and collaborating effectively within cross-functional teams. Quick learner who stays current with AI-assisted development tools to improve coding efficiency and delivery speed.

TECHNICAL SKILLS

Programming Languages: Java, SQL, JavaScript

Frontend: HTML5, CSS3, React.js, Tailwind CSS

Backend : Core Java, Servlets, JSP, JDBC, Object-Oriented Programming (OOP), Hibernate, Spring Boot

Database: SQL, Relational Database Design

Version Control: Git, GitHub

AI & Developer Tools: ChatGPT, Claude AI, Gemini AI, GitHub Copilot, Cursor AI, Antigravity AI, Prompt Engineering

PROFESSIONAL EXPERIENCE

Java Developer Intern — Tap Academy

April 2026 – Present

- Developed and maintained full-stack web applications and RESTful APIs using Core Java, Advanced Java, Spring Boot, Spring AI, JDBC, Hibernate, and MySQL.
- Built responsive and interactive frontend applications using React, JavaScript, HTML, and Tailwind CSS, integrating them seamlessly with backend services and databases.
- Applied OOP, Collections, Multithreading, Exception Handling, and Java 8 features while optimizing database queries, debugging applications, managing code with Git, and improving application performance and reliability.

ACADEMIC PROJECTS

AI-Enhanced E-Commerce Platform | Full Stack Java

Java, JDBC, SQL, Servlet, JSP, HTML5, CSS3, Tailwind CSS, JavaScript, Git, GitHub

- Built a full-stack e-commerce platform with authentication, product catalog, cart, and order processing
- Designed responsive UI using React.js, HTML5, CSS3, and Tailwind CSS.
- Implemented JDBC connectivity and SQL queries to handle CRUD operations across core modules.
- Structured code to separate UI and data-handling logic, improving maintainability.

- Managed feature branches and commit history using Git and GitHub.
- Used AI-assisted tools to speed up coding, debugging, and documentation.

AI-Assisted Food Delivery Application | Full Stack Java

Java, JDBC, SQL, Servlet, JSP, HTML5, CSS3, Tailwind CSS, React, SpringBoot, JavaScript, Git, GitHub

- Developed a food delivery app with restaurant listings, menu management, and order tracking.
- Built responsive interfaces with React.js focused on clear navigation and usability.
- Integrated JDBC and SQL for restaurant, menu, and order data management.
- Tested core flows (ordering, status updates) to catch functional issues early.
- Maintained modular, scalable code tracked via Git/GitHub.
- Applied AI-assisted tools for coding, debugging, and documentation support.

ACHIEVEMENTS & CERTIFICATIONS

- 2nd Place Winner, Sir MVIT Hackathon: Engineered optimized Java-based algorithmic solutions under strict time constraints, securing 2nd place among 200+ participants.
- Web Development Certification — Internshala: Completed comprehensive technical training and practical application in HTML and CSS.
- Campus Hero Webinar — Coding Ninjas: Participated in specialized technical career development sessions focused on advanced coding insights.

EDUCATION

Master of Computer Applications (MCA)

Nov 2023 – Nov 2025

Sir M. Visvesvaraya Institute of Technology, VTU ,Bangalore, India | CGPA: 8.8 / 10.0

Bachelor of Computer Applications (BCA)

Jun 2020 – Jul 2023

Jharkhand Rai University, Ranchi, India | CGPA: 7.9 / 10.0

SOFT SKILLS

Problem Solving, Communication, Teamwork, Adaptability, Analytical Thinking, Time Management
